## PROFILE

Over the past year I have started my coding training to follow my career ambition of becoming a Fullstack Developer. This began through Codecademy supplemented by Free Code Camp and Youtube, and since October I joined Le Wagon Web Development Course and have graduated as a Fullstack Developer. I worked 2 jobs part-time throughout spring and summer to help fund the course, whilst continuing to learn to code.

## SKILLS

- Strong interpersonal and customer service skills
- Team leadership and management capabilities.
- Problem solving
- Constructed my own computer from self taught learning
- Microsoft Applications

## PROJECTS

### VLOYAL

Pitched an idea for a web app called 'VLoyal' and completed the project within 2 weeks in a team of 5. VLoyal was created to turn paper loyalty cards into virtual loyalty cards storing them in one app, using a QR code scanner to add virtual stamps.

- Acted as the project lead and project manager.
- Managed all merges and resolved all conflicts in Github.
- Implemented the QR code scanning feature to the web app.
- Worked on multiple animations using Javascript.
- Used Figma and CSS to add styling throughout the web app.
- Presented and showcased the final product to 100+ people.

### SUPPER CLUB

Designed, implemented and shipped to production a clone of AirBnB called 'Supper Club'. The web app was for users to create and showcase their supper club events, as well as to discover and buy tickets to other supper clubs. Lead and managed this week long project.
